MESSAGE FROM THE DEAN

Shape Your Future

The global business landscape is hyper-competitive, turbulent and complex. Managing effectively requires more than well-honed technical skills. It requires resiliency, tenacity, and fresh, new thinking. It requires the ability to explore a problem from multiple perspectives, to reframe it, and push through to actionable solutions.

At the Schulich School of Business, we have developed seven distinct full-time, 12-month Masters programs that will equip you to thrive in this new business paradigm; one that our School illustrated in the groundbreaking book *Re-Imagining Capitalism* published in collaboration with McKinsey & Company.

These programs strengthen your technical expertise and enhance your leadership skills. Gain hands-on experience at one of our cutting-edge labs and research hubs at our new Rob & Cheryl McEwen Graduate Study and Research Building. The building is home to our Centres of Excellence where we are global leaders in industries of the future, including business analytics, infrastructure and artificial intelligence.

Chart a course to achieve your career objectives with a Schulich 12-month Masters degree.

Dezső J. Horváth, PhD, CM

Dean & Tanna H. Schulich Chair in Strategic Management
Schulich School of Business

Canada's Top-Ranked Business School
Global Reach. Innovative Programs. Diverse Perspectives.

Schulich MBA: #1 IN CANADA (Forbes, CNN Expansión, Corporate Knights, América Economía, eFinancialCareers) #2 IN THE WORLD (Corporate Knights)
Kellogg-Schulich Executive MBA: #1 IN CANADA (Financial Times, The Economist) #6 IN THE WORLD (QS TopMBA) #8 IN THE WORLD (The Economist)

A man with short grey hair and glasses, wearing a dark suit jacket over a blue shirt, stands with his arms crossed and a smile. He is positioned in the foreground on the right side of the frame. Behind him is a large industrial facility, likely a warehouse or distribution center, with several white trailers parked in a row. The trailers have the word "Purvator" written on them in red. The sky is overcast with grey clouds. The overall scene is an outdoor industrial setting.

Master of Supply Chain Management

MSCM

“The Schulich Master of Supply Chain Management program will uniquely equip students with the industry knowledge and leadership skills they need to effectively manage continuous change and advance their careers in supply chain management.”

PROFESSOR DAVID JOHNSTON

BA & MBA & PhD (UWO)

Program Director, Master of Supply Chain Management
Professor of Operations Management and Information Systems

Master of Supply Chain Management (MSCM)

Design global supply chains for tomorrow's innovative economy.

Launching in May 2019, the Master of Supply Chain Management (MSCM) program prepares you for leadership roles in building, managing and changing supply chains. The 39-credit full-time or part-time program develops the analytical and managerial skills needed to find creative supply chain solutions to business opportunities and problems in private, nonprofit, or governmental sectors.

True to the cross-functional nature of modern Supply Chain Management (SCM), the program adds value to persons with previous undergraduate degrees in areas such as engineering, economics, healthcare, science, social science, and business.

FLEXIBLE STUDY OPTIONS

For those currently working in industry, the MSCM is structured to allow part-time enrolment. Students enrolled full-time can finish the program in one year, while part-time students can finish within as little as two years. Certain qualified candidates may be eligible for Advanced Standing, thereby reducing their time in the program.

INNOVATIVE STRUCTURE

The MSCM curriculum combines foundational business knowledge with specific functional courses and their practical application. The program is highly experiential, culminating in a collaborative Supply Chain Consulting Project in which groups explore opportunities for business development and problem-solving for a client organization.

CAREER OPPORTUNITIES IN SUPPLY CHAIN MANAGEMENT

The program is designed for students who aspire to rapid career advancement from entry level positions in logistics, purchasing, operations and customer service to senior management positions responsible for the end-to-end design and coordination of an organization's supply chain, such as vice president of supply chain management.

Throughout your studies, benefit from access to the Career Development Centre (CDC). As Schulich's in-house team of certified Career Coaches and Industry Advisors, the CDC offers a wealth of innovative resources, individualized mentoring and coaching to help advance your career. Meet alumni, recruiters and industry leaders from companies that recruit for supply chain roles at Schulich, including Walmart, Labatt, Canadian Tire and Amazon.

FULL-TIME

 **START DATE**
May

 **COMPLETION**

PART-TIME

 **START DATE**
May

 **COMPLETION**
24 months

“The SCMA considers this a much-needed initiative that will strengthen Canada’s supply chain profession, enabling intelligent, competitive, and sustainable supply chains capable of driving Canada’s competitive commercial advantage.”

CHRISTIAN BUHAGIAR
President & CEO, the Supply Chain Management Association (SCMA)

The Schulich MSCM experience provides:

Flexibility

Continue working in industry with part-time enrolment options or complete the degree in just one year of full-time study. Enjoy learning in a mixed class cohort, with students from different backgrounds pursuing various study options.

Community

Benefit from a rich culture of engagement, a highly experiential classroom environment and a diverse network of industry connections.

Leadership

Tackle complex supply chain challenges by developing your own creative solutions – then learn to deliver results with applied learning courses and a capstone consulting project.

Integrity

Apply an ethical framework to supply chain issues as you consider the wider context of social and environmental impact.

YOUR MSCM JOURNEY

The 12-month Master of Supply Chain Management offers a cross-functional, experiential and interactive program of study. Students benefit from the diverse perspectives and experiences offered with a mixed class format and a strong co-curricular complement.

***Accelerate your degree with Advanced Standing:** If you hold a BBA or iBBA degree from the Schulich School of Business, you may be eligible for Advanced Standing in Term 1 of the MSCM program. If you hold a Bachelor of Business Administration or Bachelor of Commerce degree obtained within the last ten years from a recognized North American business school, you may request an assessment for Advanced Standing with our Graduate Admissions team. Note that you must have a minimum B grade in all applicable courses. If granted, Advanced Standing would allow you to enter the program at Term 2 in September and complete your degree in eight months (full-time) or sixteen months (part-time).

Student Life

Make Life-Changing Connections

Build lasting memories as part of an engaged and diverse student community. Develop your strengths, skills and interests with a host of exciting co-curricular activities.

Participate in Case Competitions

Strengthen your analytical and presentation skills and master the case method with opportunities to compete around the world.

Discover New Interests and Passions

Choose from over 30 student-run clubs and organizations. From mining and investment banking to sustainable enterprise and women in leadership, you'll have the ability to pursue a broad spectrum of interests alongside your studies.

The Rob and Cheryl McEwen Graduate Study & Research Building

Designed by the award-winning international architectural firm Baird Sampson Neuert Architects, the 67,000 square-foot Rob and Cheryl McEwen Graduate Study & Research Building will address the need for increased student study and social space, as well as accommodate growth in new academic programs and modern research facilities.

Schulich's Centres of Excellence, including the Centre of Excellence in Responsible Business, the Centre for Global Enterprise, as well as the Brookfield Centre in Real Estate and Infrastructure, will be housed in the new Building. This expansion to the Schulich School of Business complex includes many technical features at the forefront of environmental sustainability in North America and will be home to the Deloitte Cognitive Analytics & Visualization Lab.

Team Schulich wins the 2018 Developers' Den international real estate case competition.

Enjoy New Social Activities

Join a tightly knit group of students and connect through sports, pub nights and community engagement. Schulich brings you a world of opportunity to expand your interests with students from an array of different backgrounds and regions.

Schulich's annual student-faculty soccer game.

Key Highlights

It's all Right Here for You at Schulich. Join In!

SEPTEMBER Schulympics

Join a weekend getaway organized by the Graduate Business Council (GBC) for canoeing, campfires and fun with your fellow students.

JANUARY MBA Games

Meet and compete with other graduate business students from top schools across Canada.

OCTOBER Culture Crawl

Celebrate your colleagues' different cultural backgrounds with food, song and performances.

APRIL Graduate Formal

Toast the end of the Winter Term with a night of awards, dining and dancing.

Schulich Celebrates Winning the 2018 MBA Games
