MESSAGE FROM THE DEAN

Shape Your Future

The global business landscape is hyper-competitive, turbulent and complex. Managing effectively requires more than well-honed technical skills. It requires resiliency, tenacity, and fresh, new thinking. It requires the ability to explore a problem from multiple perspectives, to reframe it, and push through to actionable solutions.

At the Schulich School of Business, we have developed seven distinct full-time, 12-month Masters programs that will equip you to thrive in this new business paradigm; one that our School illustrated in the groundbreaking book *Re-Imagining Capitalism* published in collaboration with McKinsey & Company.

These programs strengthen your technical expertise and enhance your leadership skills. Gain hands-on experience at one of our cutting-edge labs and research hubs at our new Rob & Cheryl McEwen Graduate Study and Research Building. The building is home to our Centres of Excellence where we are global leaders in industries of the future, including business analytics, infrastructure and artificial intelligence.

Chart a course to achieve your career objectives with a Schulich 12-month Masters degree.

Dezső J. Horváth, PhD, CM

Dean & Tanna H. Schulich Chair in Strategic Management
Schulich School of Business

Master of Accounting

MAcc

“The professors in the Master of Accounting program were incredible. Their love for teaching created a positive energy in the classroom, and their breadth of experience in the accounting industry gave me a clearer idea of my career aspirations.”

BRENNAN RASHKOVAN (MAcc Candidate '18)
Staff Accountant, EY

Master of Accounting (MAcc)

Benefit from a unique Masters program accredited by both the Chartered Professional Accountants (CPA) of Ontario and the global Association of Chartered Certified Accountants (ACCA) – designed for graduates of liberal arts, science and business programs.

MULTIPLE PATHWAYS

Depending on your academic background, the Schulich MAcc offers three distinct entry points, preparing you for success in the complex field of accounting while fast-tracking you through CPA Ontario's Professional Education Program (PEP).

The Diploma in Intermediate Accounting (DIAC) provides non-business graduates as well as individuals that have graduated from non-Canadian institutions with the prerequisites required to stream seamlessly into the MAcc. Business graduates from CPA-Accredited programs and Canadian business degrees begin the MAcc in Term 1. Schulich i/BBA graduates from the CPA stream may start the MAcc in Term 2 of the program.

Applicants who are registered with CPA and are in the process of completing the Professional Education Program (PEP) may be eligible for advanced standing.

ACCA members, and affiliates with an undergraduate degree, may also receive advanced standing toward earlier completion of the MAcc.

GAIN THE OPPORTUNITY TO WRITE THE COMMON FINAL EXAMINATION (CFE) UPON GRADUATION

Participate in meaningful dialogue with highly engaged instructors about relevant, real-world accounting applications. With a focus on case-based integrative learning, the broad curriculum will help you to accomplish two important objectives.

First, you will master key accounting functions and hone the ability to make decisions within legal, financial, regulatory and ethical frameworks.

Second, you will deepen your expertise in two streams; whether tax, assurance, performance management or finance, preparing you for the Common Final Examination (CFE).

To support and accommodate working professionals, Term 3 is offered on evenings and biweekly weekends to prepare you with the final tools you need to successfully complete the CFE and accelerate your career.

CAREER OPPORTUNITIES

Beyond the classroom, you'll find opportunities to continue expanding your connections as you meet industry leaders at co-curricular and career networking events.

MAcc graduates are highly marketable post-degree, with over 90% of students hired within three months of graduation, based on previous cohort data.

Top firms from both the private and the public accounting sector hire Schulich MAcc graduates in a variety of functions, including financial accounting, cost accounting, tax planning, estate planning and auditing. The MAcc could lead you to an exciting career in an organization such as KPMG, CIBC, PwC, Citco, or EY.

FULL-TIME

START DATE OPTIONS

May – Term 0 (DIAC)

Graduates from non-business degrees or institutions outside of Canada

16 months

September – Term 1 (MAcc)

Business/Commerce Graduates from a Canadian Institution

YOUR MAcc JOURNEY

The Master of Accounting is a professional degree program designed to develop students' academic and intellectual abilities in all fields of professional accountancy. Successful graduates will have acquired in-depth knowledge in all of the sub-disciplines that constitute the broad field of accounting and will have also deepened their expertise in two chosen areas. They may proceed to write the Common Final Examination after graduation.

“The Schulich Master of Accounting helped me develop the skill set and connections necessary to pursue the CPA designation and advance my career.”

FAGHYA SHAFIQ (BBA '16, MAcc '17)
CFE Gold Medal Winner
Staff Accountant, EY

Faghya Shafiq (BBA '16, MAcc '17)

PROFESSOR MARCIA ANNISSETTE

BSc Hons (West Indies); MSc (UMIST);
PhD (Manchester); FCCA (UK); CPA, CGA

Associate Professor of Accounting
Director, Master of Accounting Program
Associate Dean, Students, Student Services
and International Relations

Teaches: Financial Accounting Fundamentals

“Professor Annisette is one of the greatest professors I have met at Schulich. She helped shape my strong passion for accounting in my first class of the MAcc. Her continuous support and guidance through both the academic program and the transition to my career have provided me with an excellent grounding in business and accounting in the workplace.”

MICKY ZHANG (MAcc '14)

Student Life

Make Life-Changing Connections

Build lasting memories as part of an engaged and diverse student community. Develop your strengths, skills and interests with a host of exciting co-curricular activities.

Participate in Case Competitions

Strengthen your analytical and presentation skills and master the case method with opportunities to compete around the world.

Discover New Interests and Passions

Choose from over 30 student-run clubs and organizations. From mining and investment banking to sustainable enterprise and women in leadership, you'll have the ability to pursue a broad spectrum of interests alongside your studies.

Enjoy New Social Activities

Join a tightly knit group of students and connect through sports, pub nights and community engagement. Schulich brings you a world of opportunity to expand your interests with students from an array of different backgrounds and regions.

The Rob and Cheryl McEwen Graduate Study & Research Building

Designed by the award-winning international architectural firm Baird Sampson Neuert Architects, the 67,000 square-foot Rob and Cheryl McEwen Graduate Study & Research Building will address the need for increased student study and social space, as well as accommodate growth in new academic programs and modern research facilities.

Schulich's Centres of Excellence, including the Centre of Excellence in Responsible Business, the Centre for Global Enterprise, as well as the Brookfield Centre in Real Estate and Infrastructure, will be housed in the new Building. This expansion to the Schulich School of Business complex includes many technical features at the forefront of environmental sustainability in North America and will be home to the Deloitte Cognitive Analytics & Visualization Lab.

Key Highlights

It's all Right Here for You at Schulich. Join In!
