

## Application Study Plan (Full Term or Short Term Exchange Only)

Review the course offerings for each partner school selected on your application. Course information can be found on your Schulich portal under 'Schulich Links' - 'Exchange Resources' or on the partner school's website. List the courses that you are interested in if selected to attend this school. Note, this study plan is only a preliminary list of courses in support of your academic rationale for studying on exchange. Course offerings for the term you have applied to, will be available at a later date.

Courses offered at partner schools may not always be worth the same number of credits as Schulich courses (ie. You may need to register in more courses). Credit equivalencies for each school can be found on our International Opportunities website.

**Please complete one study plan for EACH partner school listed on your application and upload them to your study abroad application.**
