

Master exchange - course offer 2022-2023 (under regular reservation)

MSc courses

Students may enroll for (one or more) courses from most of our specialized Master programmes. The courses mentioned in this document are open to regular RSM, CEMS, ERIM and exchange students and each group has its own number of available spots. The registration is on first-come, first-served basis. Master/MBA exchange students from our MSc partner schools can only participate in master courses from RSM. Students can choose to participate in one block of courses (short exchange) with a duration of 7-8 weeks including exams, or in a full term of courses (2-3 blocks).

The academic year is divided into 5 blocks of courses of 7-8 weeks. The fall term consist of master core courses, whereas the spring term offers master elective courses.

Exchange terms

The full fall term consists of two blocks:

Block I

Courses	Monday 29 August till Friday 14 October 2022
Exams	Monday 17 October till Saturday 22 October 2022
Re-sits	Tuesday 3 January till Saturday 7 January 2023

Block II

Courses	Monday 24 October till Friday 9 December 2022
Exams	Monday 12 December till Wednesday 21 December 2022
Re-sits	Monday 13 March till Saturday 18 March 2023

The spring term consists of three blocks:

Block III

Courses	Monday 30 January till Friday 10 March 2023
Exams	Monday 13 March till Saturday 18 March 2023
Re-sits	Monday 1 May till Saturday 6 May 2023

Block IV

Courses	Monday 20 March till Friday 28 April 2023
Exams	Monday 1 May till Saturday 6 May 2023
Re-sits	Monday 19 June till Saturday 24 June 2023

Block V

Courses	Monday 8 May till Friday 16 June 2023
Exams	Monday 19 June till Saturday 24 June 2023
Re-sits	Monday 17 July till Saturday 22 July 2023

Extra option for full term exchange students: International Consultancy Project

In addition to the regular master programme courses, students can participate in the International Consultancy Project (ICP).

The ICP is worth 12.5 EC and for 4-5 months, a team of international students work intensively on a consultancy project for a company. The project is supervised by both an academic coach as well as a corporate coach. The aim of the project is to respond professionally to a real-world management problem and to learn from working in multidisciplinary and culturally diverse groups.

Because of its' professional and intensive character, students are strongly advised not to take more than one course per block, next to participation in the ICP. For more information: [International Consultancy Project](#)

More information on the master programme courses:

Course guide

Students can find all information on their courses in the [course guide](#).

When entering this digital course guide, students should choose the English language, the master programmes and correct study year (2022). Not all courses are open to exchange students. All courses open to our exchange students can be found in this document as of page 4.

Finance & Investments

Many courses from the master programme Finance & Investments have entry requirements and may require a certain background in finance courses. Students can find the requirements in the online [course guide](#).

Course manuals

The final course manuals will be published on Canvas about 1 week prior to the start of classes. Enrolled students have access to the Canvas pages of a course.

Other

Some master programmes courses offer (mandatory) prep-courses. If so, this information is also to be found in the online [course guide](#) published around 6-8 weeks prior to the start of the courses. These requirements apply if students want to participate in these specific master programme courses.

Participation & minimum/maximum workload

Block: Students need to participate in at least one course per block.

Fall term: The minimum workload for the full fall term is 20 EC (Block I & II). Because of the demanding and intensive character of master core courses, the recommended maximum workload is 24 EC. The minimum workload for 1 block is 12 EC.

Spring term: The minimum workload in electives for the full term is 18 EC (Block III & IV) or 20 EC (Block III, IV & V). The maximum workload is 18 EC for 1 block. The recommended maximum workload for the full term including all three blocks is 24 EC.

Full year: Students staying for the full year (Block I till IV or V) need to obtain a minimum of 40 EC.

Course Registration

Course registration is done online and is on first-come, first-served basis. Nominated students will receive information from the International Office on how and when to register. Some information on courses and registration published on the diverse platforms (e.g., Canvas/SIN-Online) may vary for exchange students.

Course openings

Fall term (core courses): Master programmes have a certain number of spots available in their course for all CEMS, ERIM and exchange students. The system cannot distinguish the difference in these 3 groups and sees this as 1 group. This means that it accepts all registrations from all 3 groups until the total number of available spots for this group within a course is reached. Therefore, all students are automatically placed on the waiting list at first. Programme Management will then manually check the number of registrations per group once the deadline has passed. If the total number of registrations per group does not surpass the number of available spots, all students are enrolled for the course. If the number of registrations does surpass the limit, the students concerned will be informed, taken off the waiting list and requested to change to a different course.

Spring term: For the electives, a different system is used. All exchange students can register for courses if there are spots available. They cannot register for courses that are full. Once registered means that the student will also be enrolled.

Exchange students may see a notification on their screen that the course selected, is not part of the study programme. This message can be ignored since this message is only relevant to regular RSM students.

Course workload

In the fall term, we offer core courses that may vary in credits from 1 to 6 EC. In the spring term, we offer electives that all have a workload of 6 EC.

1 EC stands for 28 hours of workload both in- and outside the classroom. To count the in-class hours, one would have to manually count the hours in the timetable.

Class schedule / exam registration:

It is the students' own responsibility to ensure that the schedules of their selected courses do not have conflicts. This also involves exams and re-sits!

Once registered for a course, the student is automatically registered for the regular exam, and, in case the student fails a course, for the re-sit. If a student wants to take a re-sit to improve their grade, the student needs to register for the re-sit in the Osiris system. Further instructions on re-sit registration are passed on to the students in time.

Course offer Block I:

COURSE CODE	COURSE NAME	EC
Accounting & Financial Management (AFM)		
BM01AFM	Financial Information and Decision Making	5
BM05AFM	International Financial Reporting	5
