SCMAO partners with the Schulich School of Business to Expand Pathways to the CSCMP Designation

Supply Chain Management Association Ontario (SCMAO) and York University's Schulich School of Business have reached an agreement that will provide an efficient path for graduates of the school's *Master of Supply Chain Management* program to pursue their Certified Supply Chain Management Professional (CSCMP) designation – at a faster rate.

Today's global market demands skilled practitioners to support the management of complex supply chains. SCMAO's Designation Program meets this need and equips those seeking to launch or accelerate their career with the necessary skills to work at a management or executive level.

Many designation holders find having the designation helps them progress within their career and contribute at a strategic level within their company.

"Advanced standing for MSCM graduates to the SCMAO professional designation provides an additional pathway to career success in addition to providing support for our common goal of professionalizing the supply chain management community in Canada and supporting a highly innovative, productive and sustainable modern Canadian economy." David Johnston, Program Director, Master of Supply Chain Management

"At SCMAO our brand promise is to be Canada's largest community of supply chain professionals, committed to supply chain excellence. The supply chain profession has never been more vital to the progress of the Canadian economy and as the profession continues to be in the spotlight, we are on a steadfast path to deliver on our purpose: to promote awareness of the important role of supply chain management, as well to professionalize the industry through the CSCMP Designation - Canada's leading designation for supply chain professionals." -says Himani Dureja, VP of Education and Corporate Engagement.

As a graduate of the Master of Supply Chain Management program if you obtained a minimum cumulative GPA of 60%, you will be exempted from the following CSCMP program components:

- Module 1: Foundations of Supply Chain Management
- Module 2: Procurement Strategy and Supply Management
- Module 3: Inventory, Logistics Management and Transportation
- Module 4: Operations and Process Design Management
- Module 5: Knowledge Management
- Module 6: Global Strategic Sourcing

Module 7: Public Sector Supply Chain Management
Module 8: Major Projects, Capital Goods and Services
Workshop 1: Effective Leadership
Workshop 2: Art of Negotiation
Workshop 3: Importance of Communication
Workshop 5: Risk Management
Workshop 6: Ethics: Social and Environmental Responsibility
