OPPORTUNITY

Fengate is a leading alternative investment manager focused on infrastructure, private equity and real estate strategies. In 2006, Fengate established its first infrastructure fund with a mandate to invest in infrastructure investments in Canada. Today, Fengate has invested in over 50 assets across the energy transition, digital, social and transportation infrastructure sectors in the United States and Canada.

As part of their strategy to grow the infrastructure investment platform, Fengate is seeking to hire an Analyst to join their investment team in Toronto to expand their investment capabilities. Additionally, there is an opportunity to work with data center / AI portfolio companies for a secondment period of 12-18 months, resulting in either an opportunity to continue with one of the portfolio companies or upon completion of the secondment, move to Fengate Asset Management's Investment Teams.

KEY RESPONSIBILITIES

- Provide a wide range of financial and investment focused analytical support as required, including financial modelling, presentations, investment memos and diligence
- Support diligence and analysis of new land, power or data center acquisitions
- Participate in internal and external meetings as part of the team
- Support capital markets initiatives, including equity and debt funding for portfolio companies
- Support management team in quarterly board meeting preparation and analysis
- Support sourcing, bidding and closing investments and financings

- Support managing development partnerships and platforms
- Support diligence of new and management of existing development partnerships/platforms for non digital infrastructure investments (including energy, social and transportation investments)

Requirements

KEY QUALIFICATIONS

- Undergraduate degree in Finance, Economics, Engineering or a related field
- Demonstrated experience in financial modeling, Excel and other statistical packages
- 1+ years of cumulative work experience for a financial institution, data center company, energy company or other relevant background
- Strong understanding of project risk (development, construction and operation) and project documentation
- Strong organizational skills, and the ability to effectively prioritize in a demanding, high paced environment
- Ability to formally articulate and present data as requested

CORE COMPETENCIES

- **Being Authentic** –Inspiring trust and being courageous.
- **Focusing on Performance** –Being accountable and driving results.
- **Understanding Stakeholders** – Knowing the needs of those who rely on you.
- **Building Effective Relationships** – Collaboration and communication.

Fengate is an equal opportunity employer, we strive to attract and retain a diverse workforce and are committed to promoting diversity, equity, inclusion, and belonging in the workplace. It is a core priority at Fengate to create, operate with, and continuously grow and sustain an inclusive culture that respects and connects the diversity of our team, our clients, our partners, and the communities we work in.

We are committed to providing accommodation for persons with disabilities. If you require accommodation, we will work with you to meet your needs.

We thank all applicants for their interest in this position; however only candidates selected for an interview will be contacted.
